

**International Conference on Electrical, Computer and Communication  
Technologies (ECCT 2026)**

**May 07 – 09, 2026**

**Venue: Dhaka International University, Bangladesh**

**Organized by: Department of CSE and EEE, DIU; CIC and BCS**

**Slides Preparation and Presentation Guidelines**

**Request to read each point carefully**

1. One of the authors must have to present the paper during the conference. In case of online presentations, it is very important to ensure the online participation of **all authors of each paper** during the presentation. This is due to the fact that if the **connection of the presenter** is lost, **other authors** can come forward to complete the remaining part of the presentation.
2. Authors of online presentation should prepare both **video presentations and power point presentations**. Authors must have **to upload** both video presentations and power point presentations. The file names must have following name conventions:

*a. File names for power point slides: Paper ID\_Presenter Full Name.pptx*

*b. File names for video presentation: Paper ID\_Presenter Full Name.mpeg.*

Any other well-known video format is also acceptable. But **naming convention** is very important

3. The link for uploading presentation slides and recorded presentation videos will be activated within **May 04, 2026**. Even though authors need to upload both presentations, the presentation will be **live presentation** by the authors. In case of any emergency situation such as **loss of connection, slides display problems** etc. of the authors, we shall use play video presentations from our side. Even we play video presentations (in case of emergency) from our side, the authors of the paper must be available to interact with session chairs, session co-chairs and other participants of the session during question answering.
4. All authors need to stay at the presentation room **till the end of the session**. We shall distribute certificates to the authors at the end of the corresponding session and send the certificates of all online presented papers in the session just after the session via email.

5. Time allocation for each paper is **15 minutes** (**10 minutes** for presentation and **five minutes** for question answering). Authors should strictly follow the time frame for the presentation. Otherwise, the paper may not be considered for best paper award. There are several best paper awards.
  
6. While preparing presentation slides we request you to follow the following guidelines:
  - a. Introduction: **1** slide (Presentation time: 30 sec)
  - b. Problem Statement: **1** slide (Presentation time: 1 min)
  - c. Related work (you can address **3-4** most significant work related to your work with their contributions, limitations and significant difference with your work): **3-4** slides (Presentation time: 1 min 30 sec)
  - d. Research Questions: **1** slide (Presentation time: 20 sec)
  - e. Objectives : **1** slide (Presentation time: 20 sec)
  - f. Outcomes and Impacts: : **1** slide (Presentation time: 20 sec)
  - g. Methodology / System Architecture: **2-4** slides (Presentation time: 3 min)
  - h. Experimental / Simulation Results: **3-5** slides (Presentation time: 2 min)
  - i. Conclusion: **1** slide (Presentation time: 20 sec)
  - j. Future Research Direction: **1** slide (Presentation time: 20 sec)
  - k. References (Just show): **1-3** slides (Time: 15 sec)
  - l. Acknowledgement (Just show)(if anyone to acknowledge): **1** slide (Time: 5 sec)
